We refer to this as a "Proper DMCA Notice." You can protest a DMCA notice by submitting a counter-notification as described below. Sign up now! Ads keep us online. Testing is mostly in many places in order to serve as a useful reference for modders to see how to code their own mods. Once you have verified that the XML Injector is working, you can remove the XMLINJECTOR TEST V2 file. Package and the test interactions no longer appears in your pie menus. The script file should remain in your mods folder. If the script is removed, other mods that depend on it will no longer work properly. You should check here occasionally, particularly a day or two after the game updates, if it stops working, see if the mod has been updated with any important additions or fixes to new game patches. We don't have paywalls or sell mods - we never will. This mod itself does nothing, it works in the background to make other modders able to code your mods more easily. If another mod informs you that this mod is needed to work, you should proceed to download and install this one. GameBanana is an online service provider under Title II of the Digital Millennium Copyright Act, 17 U.S.C. Section 512 ("DMCA"). 2.1. Writing and sending a counter-notification access to your submission (s) is disabled due to the operation of the gamebanana warning and the takedown procedure described above, and you believe the drop was improper, you should send a counter-notification. GameBanana respects the legitimate rights of copyright owners and has adopted an efficient notice and drop procedure as required by the DMCA and described herein. Thank you from the gamebanana wikisrulesdmca Politics GameBanana is a service provider online under the Tacticle II of the Digital Millennium Copyright Act, 17 U.S.C. 512 ("DMCA"). 1.1. How to Write an adequate warning of the DMCA Notice Notice will notify the gamebanana of specific facts in a document signed under penalty of perjury. This is very important, although the XML injector allows other mods to delete your scripts, the XML injector makes the script for them and therefore the script, mods should be allowed in your game. After installing the XML injector, you must test to ensure that it is working properly. Announcements keep us online. To write an appropriate DMCA notice, provide the following information: Identify as: a) The owner of a copyright or b) a person "authorized to act Name of the owner of an exclusive right that is supposedly infringed." "Install your contact information, including your real name, street address, phone number, and email address. Identify the copyright protected work that you believe to be infringed, or if a large number of works are appearing, a representative list of works. Identify the material you claim is to infringe your copyrighted work, which you are asking for gamebanana to disable access to the World Wide Web. Identify the location of the material in the World Wide Web, providing "reasonably enough information to allow gamebanana to locate the material." State that you have "a good fan believing that the use of the material the way it complained is not authorized by the of copyright, its agents or the law." The information in the warning is accurate, under penalty of perjury. Sign the notice with a one Electronic Signature. You do not need to download the modder documentation file, it contains the technical information for modders for reference. An installation is simple. Without them, we would not exist. This policy is intended to guide copyright owners to use this procedure and also to guide users in restoring access to content disabled due to error. The file you download contains two files, a script called xmlinjector_script_v2.ts4script and xmlinjector_test_v2.package. Extract both files from the download file into the game Mods folder. NOTICE TO USERS OF SERVICESPUSUANT GAMEBANANA for the terms of service contract that you agreed to when you were allowed to become a user of the system, you are required to use only legally acquired creative works as content, and your submission (s) of content may be disabled Receiving notice that infringing stuff is showing up on them. 1. Politics with regard to non-compatible communications that the gamebanana has discretion to deal with warnings that are not compatible with any way that seems reasonable, given the circumstances presented. The included test package adds several test interactions to several game objects. If you've just played the game, then you just need to download and install this library mod if another mod you download tells you that you must have it installed. 2. Submission of Misleading Information The presentation of misleading information of any kind in a notification or counter-notification submitted to voids gamebanana any claim to rights made by the sending party. GameBanana shall comply with the appropriate provisions of the DMCA in the event that a counter notification is received by its designated agent. You should install it directly into your mods folder, not a subfolder, to ensure that it can be easily located if you update the script to a newer version. The current version of the XML Injector is version 2 and denoted by the in the file names. In the future, a mod you download may specify that it requires resources from a newer version than the one you installed, and again, this is an important reason to keep the mod installed in the main Mods folder so that it can be easily located and the version number checked. Please consider unlocking us. If you don't see these test interactions, the XML Injector won't be installed properly and won't work for mods that depend on it. The "XML Injector" test interactions can be selected from any of the following six locations in the game. The mail form of a household game ObjectsClicking in any simin the "friendly" chat choices when clicking on another simfrom a sim in the Panelfrom relationship, the "home" phone category, is not really need to test more than one of these choices, any single one should suffice. GameBanana also respects the legitimate interests of users in using media content legally, being allowed to respond to claims of infringement, and to obtain timely restoration of access to a submission that has been deactivated due to a copyright complaint. It was written to work with the latest game patch, 1.50.67 (21 February 2019). Both files are installed, you should also ensure that script mods are enabled in your game options. But every month, we have big bills and announcements running is our only way to cover them. 2.2. Writing a counter-notification to write a proper counter-notification, provide the following information: Install that access to your website has been disabled due to the warning operation and the takedown procedure.
